The Career Accelerator is an immersive, web development bootcamp running five days a week for six months. The curriculum is "advanced" and aimed at students with pre-existing experience with HTML, CSS and JavaScript..

EDUCATION

Al-Azhar University , Gaza —**Software Engineer**
2019-present .

 Al-Raed Educational Center , Gaza — **Personal websites Designing Programming Course**
15/8/2021 -26/8/2021
- In this course I learned HTML , CSS , JQuery , Bootstrap .

PROJECTS

Wasslni — *Full stack website & app*

- As a start the idea of our project [Delivering any parcel from the seller to the buyer by selecting the location of both the seller and the buyer by map]
- We build a wasslni website by using React , React-Bootstrap , Express ,PostgreSQL , MapBox , Twilio , Cloudinary
- We build a wasslni app by using React native
-
- In this project I used Twilio Communication APIs for SMS To verify sign up & I used cloudinary to Transform images to load faster with no visual degradation, automatically generate image variants
- Wasslni app :https://expo.dev/@mkhatib/wasslni
- Wasslni Website : https://wasslni.herokuapp.com/

Reddit Clone — *Full stack website*
- A website where users can post anything , create an account , Add likes , and delete what you post .

- Link : https://mayar-reddit.herokuapp.com/

IKEA — *Full stack website*

- A website where user can buy furnitures , add products in your cart
- Delete it , see a total of your products in the cart , read more details about each product
- But if you are a seller you can also add the product and delete it .
